---

### Education:

**Surya Engineering College - Erode**

**June. 2023 – May 2027**

Bachelor of Engineering in Computer Science and Engineering

Erode, Tamil Nadu

### Relevant Coursework:

**Data Analytics with Generative AI**

**Dec 2025**

By Simplilearn

### Work Experience:

**Data Analysis Intern**

**Oct 2025 - Dec 2025**

Digitroverts, Erode

**Flutter Developer Intern**

**March 2025 - May 2025**

Velga Creative Powerhouse PVT.LTD, Erode

- Developed mobile applications using Flutter framework, enhancing user experience through responsive design.
- Collaborated with cross-functional teams to gather requirements and implement features efficiently.
- Conducted code reviews and debugging sessions to ensure high-quality software delivery.
- Integrated RESTful APIs for seamless data exchange between backend and mobile applications.

### Skill's:

- **Programming Languages:** Python, Java, C, HTML5, CSS3, JavaScript
- **Data Analytics:** Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA)
- **Cloud & DevOps:** AWS, Docker, Kubernetes, Git, Github
- **Databases:** MongoDB, NoSQL, MySQL
- **Data Visualization Tools:** Power BI, Tableau
- **AI Tools:** ChatGPT, Gemini, GitHub Copilot
- **Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook

### Project's:

**Smart College System - ([Live link](#))**

**June-2026**

**Technologies Used:** ( MongoDB, Authentication and security, dashboard analytics, HTML, CSS, Git)

- Developed an AI-enabled Smart College System integrating Student, Staff, and Institution portals into a unified academic management platform.
- Implemented secure authentication, registration, and role-based access control with Flask backend and MongoDB database integration.
- Designed an intelligent Voice Query Assistant concept to provide instant responses for fee details, attendance, academic records, and campus-related information.
- Built a digital assignment management module to streamline assignment submission, tracking, and academic workflow automation.
- Architected a scalable system framework supporting future AI features such as Interview Training, Career Guidance, and Personalized Student Assistance.

### Competitions & Achievements:

- **National Level Project Expo** – Presented Smart College Management System and demonstrated AI-powered student support features.
- **College Project Competition** – Showcased Smart College Management System with dashboard and role-based access control.
